Vancouver — The Cultch is thrilled to announce both the opening of the Vancity Culture Lab and the first production of our five-part kids series *Confessions of a Paper Boy*.

When ten-year-old paperboy Christopher Columbus hears God speaking to him, what should he do? Break out the DaVinci Decoder Ring? Dust off Illuminati for Dummies? Christopher is soon delivering more miracles than newspapers. In fact, the headlines can barely keep up.

But why would God pick a ten-year old boy to do his work? What reason does He have for letting Christopher share the fears, hopes and sorrows of his customers? And is the Devil really subletting the brown bungalow down the block?

A modern fable about the power of faith and the confusion of loss, *Confessions of a Paper Boy* is a compelling reminder that though chaos may follow us wherever we go, we all choose our own path through this life.

Ghost River is the only professional theatre company in Calgary that creates, develops and mounts exclusively new work. Renowned for ambitious, politically-charged, collaboratively-created premiere productions, Ghost River receives consistent acclaim from audiences and critics alike.

Other productions from The Cultch's Kids Series include:
